Fourth International Congress

# **Infections and Organ Transplantation**

The state of the art on bacteria,  
viruses, parasites and fungal infections  
prevention and treatment

**May 8<sup>th</sup> – 10<sup>th</sup>, 2013**  
**Stresa, Italy**  
**Regina Palace Hotel**

**President of the Congress**  
**Prof. Paolo Grossi**

## ***Introduction***

The fourth Varese Conference on Infections in Organ Transplantation will, once again, provide the state of the art on the prevention and management of infections in patients undergoing solid organ transplantation in 2011. Outstanding international experts will be presenting reviews of the most up-to-date information as well as their opinion on their clinical applications.

## ***Main topics***

- **Solid Organ Transplantation:**
  - 1) **The International Context (Networking, Vigilance and Surveillance, Developing Countries, Communication)**
  - 2) **Donor Derived Infections**
  - 3) **HIV patients**
  
- **Present and future of immunosuppressive therapy**
  
- **Diagnosis and Treatment of infections (viruses, fungi, bacteria, parasites)**

## ***CME - (Continuing Medical Education)***

**A formal application for training credits for: Physicians, Pharmacists, Biologists and Nurses will be submitted.**
